

Memorial Viewbook

Design ideas to help you create a
lasting vision of love for
your loved one.

TAKE THE TIME YOU NEED

Dear Families,

If you are reading this following the death of your loved one, let me first offer my sincerest condolences to you and your family. One of the most difficult aspects to memorial planning is time. In addition to dealing with extreme grief, you are faced with having to manage a tremendous number of decisions in a very short amount of time. We want to help. We want to help you make what is rough, smooth; and what can be overwhelming, fulfilling.

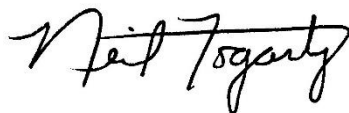

This memorial viewbook offers a wide variety of styles to spark ideas for what you'd like for your loved one's memorial. As you review the different sections of this viewbook, take note of the ones you think may work for you. Please be sure to share it with your Dodds Memorial Consultant.

We also have a Memorial Planning Guide that complements this viewbook. We've developed this guide with years of experience working with families. Our focus is on providing you with suggestions and resources to guide you through memorial planning. Please take a moment to catch your breath and make your planning process more thoughtful. Ensure that the decisions you make today will create the lasting vision of love you and your family deserve.

Please know that at any time you may need us, your memorial consultant is available to answer your questions or provide guidance through your process.

Warm regards,

Neil Fogarty, President

BENCH MEMORIALS

Bench memorials offer a particular respite by providing a place to sit during visits. As well, there are limitless possibilities for design. Each memorial has a designation underneath the photo – a three- or four-digit code – which can be used in discussion with your memorial consultant when collaborating to design your memorial.

COMPANION UPRIGHTS

Companion uprights are designed most often for couples but have also been used for siblings and other close family members who wish to be memorialized together. Each memorial has a designation underneath the photo – a three- or four-digit code – which can be used in discussion with your memorial consultant when collaborating to design your memorial.

CREMATION MEMORIALS

Cremation memorials offer those who choose to be cremated an opportunity to create a resting place for family members to visit. Each memorial has a designation underneath the photo – a three- or four-digit code – which can be used in discussion with your memorial consultant when collaborating to design your memorial.

LASER-ETCHED MEMORIALS

Since the advent of laser etching technology for memorial design, many customers have chosen to use this feature as a way to further customize their loved one's memorial – from including photo-like images to a high level of detail in other aspects of the design. Each memorial has a designation underneath the photo – a three- or four-digit code – which can be used in discussion with your memorial consultant when collaborating to design your memorial.

SLANT MEMORIALS

Similar to memorial markers, slant memorials are typically lower to the ground than uprights but maintain a uniqueness and readability because of the angle of the chosen slant. Each memorial has a designation underneath the photo – a three- or four-digit code – which can be used in discussion with your memorial consultant when collaborating to design your memorial.

MEMORIAL URNS

Creativity and personalization are important for any family wishing to memorialize their loved one. Cremation urns offer meaningful choices for you. Together with cremation memorials, you can be sure to realize your vision of love and provide opportunities for future generations to experience your loved one's spirit.
